Employer Showcase Webinar Series

Wednesday, May 22nd @ 9 am PST

During each session, you will have a chance to get to know our featured employers who are actively seeking to hire Cisco Networking Academy students who have finished their studies, are either certification-ready or already certified, and are prepared to join the workforce.
Connecting to Jobs
Webinar Session

Speakers: Jesal Gandhi and Trent Dorroh, Networking Academy Talent Bridge Team
Hostess: Kara Sullivan | Cisco Networking Academy
24 April 2019
Welcome to the Connecting to Jobs webinar

- Use the Q and A panel to ask questions.
- Use the Chat panel to communicate with attendees and panelists.
- A link to a recording of the session will be sent to all registered attendees.
- Please take the feedback survey at the end of the webinar.
Networking Academy
Talent Bridge Program
The bridge between talent and opportunities
Cisco Networking Academy Talent Bridge program connects Cisco and Partner employers with world-class Networking Academy students and alumni talent for the digital economy workforce of the future.
Networking Academy Talent Bridge Career Programs
Metrics and research inform program development

Student Career Resources
Career advice blogs, library of on-demand webinars, and information on employment opportunities. Specifically designed for NetAcad students who want to become more employable and develop their soft skills.

Professional Development
Talent Bridge delivers a career-ready course for NetAcad students. Career advice, plus information about IT career pathways, and education requirements is available.

Employer Webinars
Targeted events bringing together employers who are hiring using the Matching Engine. These virtual events allow NetAcad students to engage with our international, preferred employers.

Dream Team
Exciting events like Cisco Live and the NBA offer students the opportunity to work with IT professionals. Participants face real world challenges while gaining invaluable networking experience.

LinkedIn University
Professional, social network for our alumni, current students, instructors, and employers to network together. Specially curated content geared towards tech professionals to assist their career growth and encourage engagement on this platform.

Matching Engine
Connects over 17,000 NetAcad students to thousands of jobs globally. Cisco and our channel partners post jobs and internships.
Employer Requested Skills

What Courses do students need for the jobs of today and tomorrow?

Network Management
Network Security and Cybersecurity
Non-Technical Skills - Soft Skills
Programability
Collaboration
Data Center
Wireless
Application Development and DevOps
Cloud and Virtualization

Note - 60 respondents of 141 polled

Companies can now request candidates based on COURSES! Not just certifications.
