

FIND YOUR PLACE

in the Future of Work.

The future is not something we enter. The future is something we create.

- Leonard I. Sweet

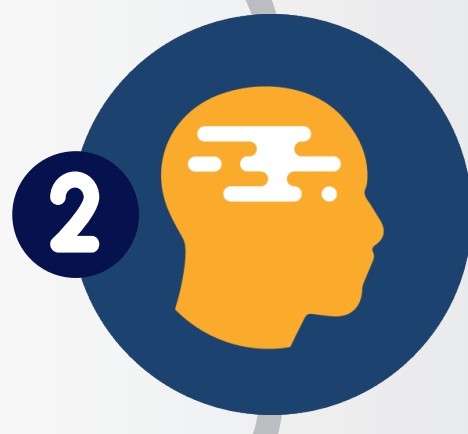

Maybe instead of dreading the future and worrying about machines taking over, we can prepare. Here's what you—and others—can do now to stay relevant:

Adopt a growth mindset

Develop your soft skills

Keep yourself in the center of the transformation by learning “always in-demand” skills:

IoT

Networking

Programmable infrastructure

Data analytics

Cybersecurity

Validate your skills with certifications

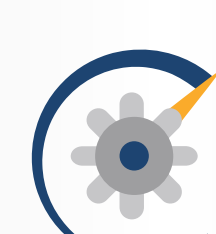

(Cisco CCNA or Cisco DevNet Assoc.)

Embrace one of these disciplines for success!

Master the art of quickly learning complicated things

Produce at a high level in terms of quality and speed

Work with and tease valuable results from machines
